

**AFTER SCHOOL HELP  
FOR SUBJECTS RECEIVING HIGH SCHOOL CREDIT**

Students graduate from Nativity Catholic School with high school credit in the following courses: Algebra I Honors, Spanish I Honors, and IPS (Introductory Physical Science) Honors. These courses are traditionally freshman courses in area high schools. By taking these courses our eighth graders here at Nativity are on the fast track to take higher level courses sooner, courses which will help them when they take ACT's and SAT's for college.

To ensure that students are thoroughly prepared for these high school courses by eighth grade, Nativity offers after school help on a regular basis in these three subject areas in grades 5 through 8 . These sessions are scheduled during (not following) afternoon dismissal so that transportation arrangements do not need to be changed. If rides and carpools are willing to delay pick up by just a matter of minutes, the students can attend help sessions regularly and still be picked up at carline at approximately 3:15 PM.

If you feel your child could benefit from these help sessions, please encourage him or her to attend extra help sessions regularly. These sessions are one of the many ways Nativity Catholic School strives to inspire excellence in our students!
