

Morning Show - LIVE!

Every Friday morning, or Thursday morning if there is no school on Friday, our morning announcements go LIVE! Thanks to a dedicated team of Studio Technicians, our morning announcements are broadcast throughout our school campus on a closed-circuit television station! Our Studio Technicians are having a blast with our new Tri-Caster studio incorporating transitions, switching between cameras, running cue cards and adding excellent visual effects to our morning program.

7th and 8th Grade Core II classes alternate to assist in the making of the cue cards for our live morning show and alternate being our News Anchors! I ask Core II students for volunteers to be the morning show anchors, students write their name on a piece of paper, and a student draws the “winning” names from a hat!

I am so impressed with how well the students are doing in front of the camera and behind the scenes to make the production all come together nicely!
