

Nativity School Cafeteria has a new log in method this year for “new” families using the online lunch system.

We will now be using a school code to access the system.

The code is **44NATTFLFL**

Once this code is entered you can proceed to enter your family and student names (thereby creating your own account).

Once the account is created you can immediately place your lunch order (if the order form is active).

Returning families login the same as they did last year.

The new login page is <http://schoolcode.orgonline.com>
