

Required Medical Forms

1. Each child **must** have the following two forms on file in the Health Room at Nativity Catholic School by the first day of school:
 - Student Clinic Card
 - Emergency Treatment Form
2. In addition, other forms **may** be required if your child has specific health needs:
 - Medical Alert Form – this form notifies the school of conditions such as allergies of which the school needs to be aware.
 - Authorization for Administration of Medication Release Form – this form gives parental permission for the school nurse to administer medication to a child. Please note that there are three variations of this release form. Two of these forms require a physician’s signature as well as a parent’s signature. Choose and complete the release form which is needed for the nurse to administer your child’s medication.
